But if there is one quality that is more important than any other is bringing success, I believe that it is energy. When you go up against this old world for the finish fight you have got to have energy and endurance. All the hig successful men have plenty of odles sound and healthy they are still big and successful men when they are old. As my old friend, Napoleon (French champion 100 years ago) used to say: "No man can win in the battle of life who has not courage and per-sistency. These are impossible where energy is lacking; hence energy is the indispensable quality of great success."

rains, training and the square deal.

Napoleon's One Trouble. And the old scout was quite right.

The only trouble with Napoleon himself was that he did not have a sound body in all respects, and consequently was not a normal man. He had sick nerves, and made all Eurape pay for them, until he took the count early in life. But he was right about energy. It isn't a case of being strong just for the sake of being muscularly strong, but a question of being sound in both mind and body, a question of strong nerves and a clear head. Just there is the important thing; a

clear head. "A sick man is a rascal," said Dr. Johnson. And it is known that the chronic criminal, taking him as a class, is physically below the average and often he is both a physical and mental "defective." It is an actual fact, found out by measuring them. Again, tramps are a class usually lacking in energy, the professional tramps, at They can't do a normal day's

A few years ago some humorist, George Ade, I think, said something about whisters. I believe he said there were some things that you cannot help, but that wou cannot help, but that "whiskers is a man's own fault." Well, weakness is like whiskers. It is your own fault. If you don't take care of your face regularly, and you're a man, then

The cocaine fiend loses all moral sens r lack of mental efficiency. You see, it I goes to show that your mind depends upon the blood supply and your body generally. In such cases they first built up the body and the nerves, and the min oproves accordingly. And there's a til for you. The man who is strong not onl has a clear head, but he has confidence In himself, confidence in his menta powers as well as in his ability to mephysical demands.

Of course, one needs strength for emer-encies, too. The ti...e may come tomor-ow when you will need good footwork, a clear eye and a steady hand. Why, a man isn't a man without strength Weakness is a thing to be ashamed of. was ashamed of it once, ten years ago And I made up my mind to be strong and when the emergency came I had the strength I needed, I was then out of work, in desperate circumstances, and got a chance to make two dollars in a preliminary boxing bout, But I was as

In the Boxing Game.

And so I drifted into the professional boxing game. As a little boy I wanted to be strong, so that I could fight and hold my own among the boys. But it was not so when I took up the professional game, which was by accident. Remember that in my case I did not become in the professional game, which was by accident. Remember that in my case I did not become in the professional game, which was by accident. Remember that in my case I did not become in the professional game, which was by accident. Remember that in my case I did not become in the team representing Catholic University, came back strong and secore of % to 15. It was Gallaudet all the way, and the Baltimore boys never had a look in for the game. Not taking any credit away from the win registered by Gallaudet, the Baltimore boys were playing under severe wight, the crack left guard of the symnasium.
